

**SOME SECRETS IN CONNECTION WITH
HIS CONDITION AND TRAINING.**

One of the best athletes and cross-country runners in the world is Mr. Ernest W. Herberg. He is the champion steeple-chase runner of America and has also much to advance athletics in their best form. People often think that endurance and strength are born in, and so they are to a certain extent, but they have to be fortified and sustained all the

...to vegetating to build me up, so as to be in a condition to weather the storm which is bound to come, and which even now must come, for mere physical endurance and nerve power do not fully answer the purpose. I determined this year to avail myself of the benefits of scientific discovery, and hence resorted to the use of something of which I had heard a great deal, and which I have since found to be of value in every way. It gave me a good appetite, built me up, and was very invigorating. This is what Falme's celery compound has done for me, and I not only endorse it but highly recommend it to athletes and those who are in training, and certainly as a tonic for any athlete who is in need of a specimen of physical manhood finds benefit from the use

a nerve tonic, vitalizer, and strengthener, that may it not be worth to those people who are not noted for superior strength and endurance. Does it not stand to reason that the weakened, debilitated man, and even many children can be greatly benefited by it at which has such remarkable effects upon athletes in the full vigor of life. The wonderful popularity which this discovery has achieved is due to the fact that it accomplishes just those things and as such it is most cordially commended. —*Ad.*

Applicants Getting Ready to Build One in Place of the One To Be Torn Down.

Boston, June 14.—The passage of the Rapid transit bill by the Legislature means the early destruction of Music Hall. The contracts for the symphony orchestra are ready for the next season, and that for the new concert must necessarily extend for five years. If Music Hall is destroyed these concerts must be discontinued indefinitely for the lack of a hall suited for such performances. In addition to these concerts those of the Handel and Haydn Association, female clubs

Other affairs not designed for the big beaches. Hall are also threatened. A number of the men who realize the verity to which Boston would be reduced in musical matters if not immediately provided with a new music hall have taken an option on a lot on the Back Bay and have issued a call for subscriptions to the amount of \$100,000, to sure the immediate building of a new music hall. The lot measures 225 feet on Westchester Park, and 150 feet on Huntington avenue.

he jumped out and acted as starter in a burlesque race in which Doc Wolf Hopper and comedian Sam Reel were the horses. It was lively illustration of the humors of racing, ending in a "foul" that was disallowed. When called to the worst end of the decision Canadian comedienne and singer Betty Granger came out in the grandstand, nearly as

“You’ve got a good tip that’s bound to show. It’s a good new thing as you well know. You’ll be a winner a thousand or two. But at least it’ll get you started. Your heart’s as heavy as a muddy track. You say naughty things and you look quite black. For your good thing didn’t go through.”

Among those who laughed at the fun were Father and Mother, Phil Sawyer, Dave Gideon, Heinrich, W. A. Gorman, W. J. Gorman, Superintendent Frank Clark, W. B. Jennings, Georges Simmonds, McElwain, Hal Smith, and Gerald. De Courey Forbes, and Jockeys Clark, Sloan, Littlefield, Mingie, the Family, Sims, Bergen, and Noble. Everybody a lot of fun.

Lieut. Peary's Burros.
EXETER, June 14.—Lieut. Robert E. Peary, U. S. N., has written to C. B. Rhodes of this city, urging him to secure and forward to him at Adulphina at once from six to a dozen burros in prime condition, broken to pack. The explorer will try the experiment of using these animals to convey his supplies across the ice of Greenland. Lieut. Peary in his letter to Rhodes says that he intends to utilize the burros not only as pack animals, but also as beasts of burden for his dogs. As soon as the ice becomes reduced so that the burro can be penned with, he will be killed and fed to the

A Woman's Back.

The mainspring of her life. What can she do, where can she go, so long as that deadly headache saps both strength and ambition ?

She cannot walk, she cannot stand ; her duties are burdensome ; she is miserable.

The cause is some derangement of the uterus or womb. Backache is the sure symptom. The one unfailing remedy is *Sydney E. Pinkham's Vegetable Compound*. A woman discovered it and gave it to woman.

Mrs. T. W. Lane, of Holyoke,

... tells what a comfort it is
to write to a woman about her
peculiar troubles, and have a
woman read her letters and give
a woman's sym-
pathy and help.
